PRIVATE PRACTICE BLISS™ GROWTH METHOD

Implement: Pilot one program or service at a time – beta round

Track Metrics: how many people register, total revenue

Track ROI: how much you spend on marketing and cost to deliver

Review Viability: Total Revenue – Total Cost determines viability. Is this service currently viable – does it bring in enough revenue after costs? Do you enjoy providing it?

Revise/Discard: **Revise, Tweak, Discard, Add/Try** aspects of your service, your costs, your marketing strategy or discard service

QUESTION

Q. What if I want my first service to be workshops/public speaking and it doesn't bring in enough revenue to leave my full-time work?

- Speaking and writing as a primary source of revenue requires a lot of pre-work before it can be viable form of primary income/revenue.
- Build up your expertise (publications, media, interviews, training, speaking events)
- Build up your platform (social media following, email list)
- Agent or speakers organization <https://www.speakers.ca/>
<https://speakerhub.com/> <https://www.speakerscoalition.com/>
- Publish a book (self-publish or through publishing company)

IDEAL GROWTH PLAN ACHIEVE VALUE-BASED LIVING

D. My system to regularly assess my short and long-term value-based goals includes the following:

- What logistical details will help you live your values
- Can you increase the number of self-pay clients so you can let go of insurance?
- Can you reduce your expenses?
- Can you modify your location/hours to better suite your needs?
- Can you change your branding so you attract the type of clients you want to work with?
- Can you diversify your revenue streams so you're not only receiving fee-for-service?
- Can you specialize in an area and charge a premium for it?

When and how will I regularly review my practices and goals to ensure I'm heading towards and achieving a private practice that allows me to live in alignment with my values?

TIP: Just because I can, doesn't mean I should

PRIVATE PRACTICE BLISS™ MAP

Use your Private Practice Bliss Inventory™ and Workbooks to map out your path to each level of growth.

- Review your inventory and prioritize what is needed to achieve current and future goals
 - Revenue Goals (5 Figure, 6 Figure, Mid 6 Figure, 7 Figure)
 - Days/Hours of work

My priority is:

- You have a limited amount of resources, so regularly review number of goals.
 - Focus on one administrative goal and/or one practice/service goal at a time.
 - Do one thing very well instead of many things
 - 90 Day Plan

My first 90 day goal is:

PRIVATE PRACTICE BLISS™ MAP EXAMPLE

- **Just starting?** Focus on business structure, first service to pilot, administrative systems to process it, growth method for that service.
- **Looking to grow?** Growth method for next format of first specialization or new/expanded topic
- **Looking to scale?** Growth method for format that allows you to offer services/product to many people at once. Includes automation.

HOW TO HANDLE NEGATIVITY/UNSOLICITED SUPPORT

- **Reflect:** Did this person say/do this to hurt me? Does this person want me to be happy? Is this person impacted by my ability to earn income or my time/availability?
- Try to get to the root cause of a loved ones Negative Nelly or Worried Wendy so you can address it. Create a plan together that you both agree to.

I would like to address this with:

- **Reflect:** Does this person understand my industry and how it works? If not, then be cautious with how much weight you give this input
- It's okay to turn down support if it's not in alignment with your vision for your business
- You are the owner of this business. You take the risks and you get the wins. You know your ideal client and your industry. You decide.

I will let go of the following well intentioned, but unhelpful, support:

STRATEGIC PRODUCTIVITY OUTSOURCING WORK

Hiring support VS paying for automation:

In the early days it can be easier to pay more for a software service that can automate parts of your business for you than it is to hire support. Reflect on what would be most beneficial for you and if there is a technical way to automate it.

I will research/implement the following automations:

Hiring support: Employee vs. Contractors

- **Employee:** They work for your company. Payroll, taxes, benefits, insurances, workplace legislation
- **Contractors:** They are self-employed and you pay an agreed upon fee. Can find at [Upwork](#) or [Fiver](#)
- Students/Interns
- Virtual Assistants – individual or part of a larger organization. Research what you are specifically looking for.

I will research the following type of support:
